

NP 25%

Altosid® IGR

Prevents adult horn fly emergence from manure of treated cattle.

ACTIVE INGREDIENT:

(S)-Methoprene (CAS# 65733-16-6) 0.005%

OTHER INGREDIENTS 99.995%

TOTAL 100.000%

* As the Insect Growth Regulator ALTOSID®

GUARANTEED ANALYSIS

Crude Protein (Min) 25.00%

(This includes not more than 12.00% equivalent crude protein from non-protein nitrogen.)

Crude Fat (Min) 5.00%

Crude Fiber (Max) 3.00%

Calcium (Min) 1.00%

Calcium (Max) 1.50%

Phosphorus (Min) 1.00%

Magnesium (Min) 1.00%

Potassium (Min) 2.00%

Cobalt (Min) 2.2 ppm

Copper (Min) 250 ppm

Manganese (Min) 900 ppm

Selenium (Min) 6 ppm

Zinc (Min) 750 ppm

Vitamin A (Min) 70,000 IU/lb

Vitamin D-3 (Min) 7,000 IU/lb

Vitamin E (Min) 70 IU/lb

FEED INGREDIENTS

Molasses Products, Plant Protein Products, Processed Grain By-Products, Urea, Hydrolyzed Vegetable Oil, Monocalcium Phosphate, Dicalcium Phosphate, Magnesium Oxide, Calcium Carbonate, Manganous Oxide, Manganese Sulfate, Zinc Sulfate, Zinc Oxide, Copper Sulfate, Ethylenediamine Dihydroiodide, Calcium Iodate, Cobalt Carbonate, Sodium Selenite, Vitamin A Supplement, Vitamin D-3 Supplement, Vitamin E Supplement and Mineral Oil.

This product contains ethoxyquin, a preservative.

FEEDING AND MANAGEMENT INSTRUCTIONS:

Feed this product to cattle only. When used as directed, NP 25% Altosid® IGR will provide sufficient (S)-methoprene insect growth regulator to prevent the emergence of adult horn flies from manure of treated cattle. Existing adult horn flies will not be affected. Start feeding before horn flies appear and continue use until cold weather marks the end of the horn fly season. Allow free choice to cattle. Cattle should consume an average of 0.8 ounce of NP 25% Altosid® IGR per 100 lbs. of cattle body weight per day, which is equivalent to 8 ounces per day for a 1,000-pound cow. **To Open:** Remove top cardboard and plastic cover.

1. Assure cattle are not starved for nutrients prior to feeding NP 25% Altosid® IGR.
2. This product contains added copper. Do not feed to cattle in close proximity to sheep or other species that have a low tolerance to supplemental copper.
3. Offer cattle 200 pounds of NP 25% Altosid® IGR for every 15-25 head of cattle.
4. Remove all other self limiting nutritional supplements while the cattle are consuming this product.
5. Locate NP 25% Altosid® IGR where cattle congregate (watering, loafing, shade areas).
6. Replenish NP 25% Altosid® IGR on a regular basis as needed.
7. If intake of NP 25% Altosid® IGR is below 0.8 ounce per 100 pounds cattle body weight per day, increase the number of feeding locations and/or change location(s) to areas more frequented by cattle.
8. If intake of NP 25% Altosid® IGR is above 0.8 ounce per 100 pounds cattle body weight per day, reduce the number of feeding locations and/or change location(s) to areas less frequented by cattle.
9. Introduction of this product after adult horn fly infestation is established will require treatment of cattle with adulticides if elimination of the adult fly population is desired.

NET WEIGHT: 200 LB. (90.7 KG)
